

LEAD-FREE

COMPLIANT PRODUCT SOLUTIONS

Delivering safe, compliant drinking water solutions across Australia and New Zealand.

LEAD-FREE WATERMARK STANDARD

LOOK FOR THE LEAD-FREE WATERMARK

Lead Free

The Lead-Free WaterMark Certification Scheme is a recognised certification system used in Australia and New Zealand to demonstrate that plumbing and water supply products comply with relevant Australian and New Zealand standards and requirements.

The Lead-Free WaterMark certification provides confidence that certified products:

- ✓ Have been independently assessed
- ✓ Meet applicable technical requirements
- ✓ Are suitable for approved plumbing and drinking water applications

Where It Applies

Lead-free requirements apply to applicable plumbing products used in drinking water systems, including products that come into direct contact with potable water.

- Municipal water distribution networks
- Drinking water pipelines
- Water treatment facilities
- Infrastructure upgrades
- Commercial and residential water supply systems

WHY CHOOSE AVK

AVK has over 75 years of experience delivering high-quality valve solutions throughout Australia and New Zealand.

Lead-Free Compliant

Our large range of lead-free compliant products are certified to Australian and New Zealand requirements for lead-free use in drinking water applications.

Engineered to Last

Premium materials and advanced engineering provide long service life and dependable performance.

Quality Assured

Manufactured under strict quality management systems and independently certified to relevant Australian and New Zealand standards.

Local Support

Dedicated technical sales and engineering support throughout Australia and New Zealand.

Sustainable Solutions

Protecting one of our most valuable resources—clean, safe drinking water.
